

SOUTH AFRICA BUYS HERE.

Large Railway Orders Placed, It Is Stated in the Commons.

LONDON, July 8.—Lord Col. Leopold Amery, Under Secretary for the Colonies, replying to a question in the House of Commons yesterday, admitted that South Africa had placed large railway orders in the United States.

Early locomotives, he added, had been contracted for by South Africa in Canada.

LEMON JUICE
FOR FRECKLES

Girls! Make beauty lotion for a few cents—Try it!

Squeeze the juice of two lemons into a bottle containing three ounces of orchard white, shake well, and you have a quarter pint of the best freckle and tan lotion and complexion beautifier at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of orchard white for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles and blemishes disappear and how clear, soft and rosy white the skin becomes. Yes! It is harmless and never irritates—Advt.

ALL MOTOR CRAFT
IN CITY WILL GET
FULL GAS MEASURE

Evening World's Campaign to Stop Gasoline Frauds Effective on Water.

Owners of motor launches and other harbor craft using gasoline for fuel are assured full measure in the future as one of the results of the campaign of The Evening World for better inspection of service station pumps by the city Department of Weights and Measures. This type of gasoline consuming equipment has long been the subject of "short" gallon abuses, due to the few filling stations, their control over trade and the absence of any measuring device on the boats similar to those used on motor car fuel tanks. Commissioner Joseph J. Holwell has asked the assistance of the Police Department in this work, which will be the first official campaign ever made to check up all the gasoline

pumps which serve the many types of harbor craft in and near New York. The work will require some time, as the gas stations are scattered all over the many miles of water front of the North, Harlem and East Rivers and the various inlets and bays of Long Island and the lower harbor.

The city inspector with his official measures and testing devices will accompany the launches of the Marine Division of the Police Department from the five stations on the regular rounds, and the police will visit any places not included in their regular work to enable the department to visit all pumps.

Marine Police Department stations are located at the following places, from which the inspectors will work: Pier A, North River; Hunts Dock, Staten Island; 125th Street and Harlem River; Pilot Avenue, City Island, and Canarsie Landing.

For a time Commissioner Holwell feared he would be unable to reach the marine service stations, due to their location, but now that the police have offered their assistance, boat owners will be assured of full gallons of gasoline and fuel when they purchase of marine stations. The work is to be done at once.

Inspectors of the department are busy checking up automobile service stations and garages, many complaints having been received as a result of the articles published in The Evening World. Other cities have also been aroused to their neglect of this important bit of inspection work and Commissioner Holwell has received reports of campaigns in other large towns over the country.

A KEYSTONE TIRE RECORD.

"The first six months of 1919 broke all previous sales records of Keystone tires," says an official of the Keystone Tire & Rubber Company.

"Not only have the 129 subsidiary companies of the Keystone organization reported phenomenal sales of tires, but jobbers throughout the country have found the demand of the retail trade increasing everywhere, especially since the decision of the Keystone Tire & Rubber Company to guarantee the tire for 4,000 miles."

"Another factor that has contributed to the increased sales is the opening of tire departments by many of the leading department stores where Keystone tires have been featured."

C. C. HANCH NOW MANAGER
OF MAXWELL-CHALMERS

The Maxwell Motor Company has just acquired the services of C. C. Hanch as General Manager of all Maxwell-Chalmers interests.

In having the Studebaker Corporation, after serving a period of years as Treasurer, Mr. Hanch comes to Maxwell-Chalmers equipped with all the executive leadership and automobile knowledge necessary to make the Maxwell-Chalmers Companies a formidable institution in the commercial world.

In June of last year, through the courtesy of the Studebaker Corporation, Mr. Hanch became chief of the Automobile Products Section of the War Industries Board. He has been a successful leader in co-operative activities of all kinds, and in addition to having served as the first President of the Indianapolis Chamber of Commerce, the new Maxwell chief was President of the Indianapolis Manufacturers' Association, Chairman Indianapolis Freight Bureau, Vice President Automobile Board of Trade, Vice President National Association of Manufacturers for the State of Indiana, and for the past few years Secretary and a director of the National Automobile Chamber of Commerce.

DIES TO SEE SWEETHEART.

Here Defies Guard and Is Shot Crossing Border.

GENEVA, July 8.—A French soldier, twenty-four years old, who has been at the front since 1914, and won the War Cross, presented himself to the French guard at Neuchâtel on the Swiss frontier and said that he must visit his fiancée in Switzerland whom he had not seen for three years. When the guard said that it was impossible to let him pass, the soldier declared, "I am going even if you shoot me. I must see her." As he crossed the frontier, the guard fired and the soldier fell dead.

HUMIDITY INJURIOUS
TO AUTOMOBILE TIRES

Now and then in the course of an automobile trip a car has to pass through a stream, and the question is sometimes discussed whether the action of the water is harmful to the tires. The same question arises when a car is out in a heavy rain.

The United States Tire Company answers this question by stating that the effect of such a wetting is practically nothing at all, either for damage or improvement.

Water itself apparently does no harm to tires, but the combination of air and moisture, commonly known as humidity, is destructive, especially to the cotton in ordinary fabric tires. The moist air works in between the layers of fabric and puffs them out, sometimes even before the tires leave the dealers' store room. Cord tires stand humidity better and it is to this fact that the United States Tire Company attributes the great popularity of its royal cord in the moist countries in the tropics.

PAIGE PLANT CAPACITY.

An army of workmen is engaged at the Paige-Detroit plant installing machinery and otherwise busy in bringing to completion new manufacturing facilities planned some time ago to meet the ever growing demand for Paige cars.

"The enlarged plant, which will shortly be ready, will give more than fifteen acres of floor space," said E. M. Dailey, President of the Paige-Detroit Motor Car Company of New York. President Harry M. Jewett is installing every labor saving device known to modern practice. He figures that these new facilities will enable him to double production.

2,713,000 TONS OF SHIPS
TURNED BACK BY ARMY

Redeliveries Expected to Dispose of Whole Atlantic Fleet by End of August.

WASHINGTON, July 8.—Redeliveries of cargo carrying and troop ships from the army to the Shipping Board have totaled 2,713,000 dead weight tons since December.

During June 226,000 tons of shipping were redelivered, a total redelivered in United States ports of 2,405,000 tons. At foreign ports 268,000 tons have been redelivered. It is estimated, if an average of ten days for redelivery is maintained, that 175,000 tons can be redelivered during July and 14,000 tons during August. This will dispose of the entire transatlantic fleet, with the exception of troopships.

At present there are 1,327,000 dead

weight tons of ships in service in the Atlantic fleet.

FANCY ARMY DRESS
IS NOW ABOLISHED

Four Uniforms Are Cut From Wardrobe of Officers by Washington Order.

WASHINGTON, July 8.—An order issued by the Chief of Staff reduces the number of uniforms to be worn in the future by officers and enlisted men of the army to the following: Service uniform (wool and cotton), dress uniform (white), mess jacket (white).

The blue dress uniform, full dress uniform, blue mess jacket and special blue evening dress uniform are abolished, together with "all appurtenances pertaining only thereto."

BLOOD
TELLS

When the body begins to stiffen and movement becomes painful it is usually an indication that the kidneys are out of order. Keep these organs healthy by taking
